

AngelwaxTM

HEAVEN SCENT WICKED FINISH

Pure craftsmanship

All of our creations are exact, precise and genius in nature. They're made in small batches by hand from the best materials through pure craftsmanship.

Authentic process, made in Scotland.

Your-Car-Ready

Angelwax products are all **tailored** to be used on **your car by you**. You don't have to be an expert to make your car **shine**. Professional detailers already know our **signature quality**.

Nessies approval

Based in **Scotland** near the city of Glasgow, we respect our **heritage** and use a unique blend of natural oils to make the **highest quality**, pharmaceutical grade wax the world has to offer.

With our small team that consists of over **25 years of experience** in the industry we have designed an amazing range of **detailing products** for the automotive industry. Based in **Scotland**, we have a research, development and manufacturing facility from where all the complete Angelwax product range is created before being shipped all over the world.

Authentic process, made in Scotland.

Scottish heritage

Sometimes we see the greatest stories to be told, start off with a modest and humble beginning. The Angelwax story begins in Scotland, near the city of Glasgow. A country that's known for its explicit heritage in greatly crafted whiskey's, Loch Ness and, almost, the lousiest weather conditions on earth.

We love cars, motorcycles and respect all the craftsmanship that went into the creating of these beautiful machines. And with over 25 years of experience in the chemical industry we were on the right place, at the right time to invent and develop the worlds best waxing and detailing products. Measured to the skill of our famous Scotch and proficient for the most tenacious climate on the planet.

Authentic process, made in Scotland

All our products are made by hand in small precise batches and strictly tested in our laboratory to ensure that we only deliver our ultimate desired level of quality before they leave our premises. All with that one goal of creating the finest detailing products the world has to offer.

All Angelwax products are exact, precise and genius in nature. The unique line-up in detailing waxes surpasses every standard and only contain the highest quality pharmaceutical grade wax our planet has to offer. Combined with our unique blend of natural oils, our detailing products astonish by excelling in unbelievable durability and leaving a finish that is unsurpassed by even the most expensive waxes available on the market today.

Quite simply, we are redefining the detailing industry with small steps everyday. We believe in quality, the use of natural ingredients and progress through devotion and research.

ANGELWAX

Professional Car Body Wax

Angelwax Body Wax offers a very high quality wax without the price tag associated with many hard detailing waxes. Only the highest grade naturally occurring waxes and oils our planet has to offer are used. This is to create an excellent product that gives your paintwork an amazing wet look, high gloss finish with outstanding durability lasting up to and beyond a staggering 6 months. Angelwax Body Wax has been a phenomenal success since the release in 2009 and is a favorite still among both the professional and amateur detailer.

ANGELWAX AG

The world's first metallic wax

Angelwax Ag is the world's first, hard metallic silver detailing waxing product. And we're not even in the Book of World Records. Ag by Angelwax is made with the same chemical components that manufactures use in the process of creating silver vehicle paint. Designed and formulated to enrich silver paintwork, Angelwax Ag adds depth and lustre while masking swirls, light scratches and minor stone-chips making this highly durable wax a 'must have' detailing product for silver-colored vehicles.

ANGELWASH

Self Drying Shampoo

Angelwax Angelwash removes the dirt on the paintjob quickly, safely and to be completely self drying after the vehicle has been rinsed. The lush foam gently cleans even the most delicate clearcoat surface without scratching and leaves a highly reflective surface once the vehicle has been rinsed. The self drying aspect of Angelwash ensures that the water will evaporate evenly from the bodywork which, in turn, prevents spotting and watermarks that may occur when a vehicle is left to dry. This pH neutral formulation is completely wax safe.

BLUE RINSE

Wax Infused Finale

Angelwax Blue Rinse is the final step in your vehicles washing process. With a super simple spray-on and rinse-off method, using Blue Rinse is the dream of every detailer. It greatly aids the drying process and makes sure no drying stains are left on the vehicles bodywork. Blue Rinse helps to prevent water spotting and therefore limescale and other contaminate to build up. With wax infused you can expect a beautiful gloss finish. It reduces drying time, but more importantly it also means less contact with cloths and towels making your wash the safest ever!

CLEANLINESS

Concentrated Orange Prewash

Angelwax Cleanliness is a powerful citrus-scented pre-wash. It is specifically formulated to remove bugs, road grime, bird lime and other general contamination from the bodywork. Cleanliness can also be used via a foam lance or pressure pump sprayer. Cleanliness is high foaming, solvent free and completely wax & sealant safe. Although Angelwax Cleanliness is designed as a ready to use product for lighter soiling, we have found it dilutes down very well making it go further.
